## SKILLS

Indepandant Learning

Leadership

Organisation

IT

Linux

C++

### Other Notable Skills:

- Java
- Python
- SQL
- Unreal Engine
- Social Networks
- GitHub
- Video Editing
- Excel
- Photoshop

## LANGUAGES

Lithuanian

Native - Expert Level

English

Bilingual - Expert Level

Russian

Bilingual - Beginner Level

## INTERESTS

- Programming
- Game Development
- Web Development
- Server Tinkering
- Gardening
- Reading Books
- Gaming
- Piano
- Cooking

## EDUCATION

### GCSE

Hellesdon High School

Courses

- **Computer Science:** Grade 9
- **Mathematics:** Grade 8
- **Combined Higher Science:** Grade 7/7
- **English Literature:** Grade 7
- **English Language:** Grade 6
- **Business Studies:** Grade 6

09/2017 - 07/2022

### Currently Studying

Courses

- **Games Technology Level 3:** RSL Level 3 Extended Diploma
- **Network Engineering:**
  - CompTIA A+ Certification
  - CompTIA Security+ Certification
  - CompTIA Network+ Certification
  - Microsoft MD-100
  - Microsoft MD-101
  - Cisco CCNA 200-301

## PERSONAL PROJECTS

Python Blackjack (02/2021 - 02/2021)

- Within the first few weeks of Studying the Computer Science GCSE, we were taught some programming in python, which I immediately used to program a Blackjack game at home and share it back at school, which the class really enjoyed. The code was incredibly inefficient however, as no functions were used, only if statements, this being due to the fact that I knew very little coding. Still, it was a big project in my class.

First PC Build (01/2021 - 01/2021)

- Having saved up enough money, I finally bought all the compnents to build a gaming PC and began work building it, which ignited a love for working with computers and their hardware, which has later lead to me studying Network Engineering.

## ACHIEVEMENTS

Best Salesman

*In year 5, our class was given the task of coming up with something to sell, and then selling the most of it. After some thinking, I came up with the idea of mugs which we paint some art on then sell. After preparing the products, we managed to sell the most out of all the groups.*

Organising and Hosting a School Event

*In Year 6, I managed to come up with the idea of a Spelling Bee event in our school, which I pitched to the Head of English and then the Principal, both of whom loved it. After that, me and 2 extra friends got our own office for a day to come up with some words, and some speeches, after which we hosted the event.*

Important High School Roles

*Throughout High School, I was able to become a Student Ambassador, as well as a Prefect later on, which allowed me to help the school out with bringing major problems to the teachers, and suggesting and voting on solutions.*

Most Books Read

*In High School, I read a lot of books, and, managed to become a Word Millionaire in a Year. Near the end of Year 11, the library statistics were displayed on a board, and it turns out I had read the most amount of books in the entire school.*
